Objective

As a web developer with a passion for learning and a solid foundation in HTML, CSS, JS, and WordPress, I am eager to advance in website development within the tech industry. Excited to apply my technical knowledge and grow professionally while contributing to projects. Seeking opportunities to learn, collaborate, and make a positive impact as I grow in my career.

Technical Skills

Programming: HTML, CSS, JavaScript, WordPress, PHP, C++, Python

Other: WPEngine, Git, Figma, Asana

Soft Skills: Organization, Leadership, Communication, Bilingual, Problem Solving, Adaptability

Experience

DigitalNEST Web Development Intern

Salinas, CA(August 2023 - Current)

- Developed a responsive website for OCCORD, a non-profit organization that advocates for social and economic justice, affordable housing, worker's rights, and immigration rights.
- Conducted meetings with OCCORD's Communication Coordinator to address inquiries and facilitate necessary adjustments.
- Assumed leadership of a project upon the departure of the lead, orchestrating team efforts to accomplish diverse tasks including site styling, form creation for ticket purchases, and carousel implementation.
- Developed custom code snippets to redirect users to the designated webpages upon link click.
- Created instructional videos to guide clients on updating the site independently, reducing their reliance on our support.

Education

Hartnell College, Salinas, CA – *Computer Science and Information Technology*

Relevant coursework: Data Structure, Software Engineering, and Operating Systems

Leadership

RobertMannPacking

Salinas, CA(March 2018 - September 2023)

- Assumed a supervisory role overseeing a team, guiding and coordinating their efforts to efficiently accomplish tasks.
- Maintained ongoing communication with clients and internal teams to ensure alignment with client requirements and promptly address any needs or concerns.
- Planned and executed food events every 2 weeks for 30+ employees to foster a culture of appreciation among workers.

WestRock

Salinas, CA(September 2023 - Current)

- Trained new employees in company procedures, job responsibilities, and best practices to ensure a smooth onboarding process and rapid integration into the team to enhance productivity and efficiency.
- Coordinated with warehouse workers and forklift operators to ensure accurate and efficient loading for transportation to prevent confusion and meet production targets.
- Purchased necessary equipment out-of-pocket for team members to facilitate their task and improve job efficiency.

Tutoring

Salinas, CA(Current)

- Mentored aspiring young programmers from 9th through college students in web development, guiding them through the creation of websites using drag-and-drop interfaces and gradually introducing foundational styling code to enhance their understanding and ability to make modifications.
- Provided support, offering assistance whenever needed, including late hours, to ensure they overcame challenges and stayed on track with their learning goals.
